Wild Aces Blackjack League Promotion

Starting December 1st, 2026, we will begin a new Blackjack promotion where patrons will get points for every "Ace card" they are dealt.

In order to take part in the Wild Aces Blackjack League, patrons must first have an Ace player's card and then register themselves as a participant with a Pit Boss or Supervisor. During the 8-week promotion (from December 1st to Jan 25th), participants will be ranked weekly based on points they earned in that week and the top 3 places each week will win cash prizes. Points earned over the entire 8 weeks will also be calculated for the final standings and on Jan 26th, the top 5 places in the final standing will win the grand prizes.

Additionally, participants will also be able to redeem their points for match plays at any time during the 8 weeks, giving participants that don't rank in the top 3 each week a chance to also earn prizes for participating. Redeemed points will be tracked but will not be subtracted from the participant's final points standings.

Points will be calculated at 1 Ace = 1 point, though participants will be encouraged to bring friends to play in the league and register those friends as their "referral" to earn additional points. When a participant is playing at the same time as their referral, they will earn extra points for each Ace (up to a maximum of 5 points, which would require the participant to have 4 friends registered as their referrals, with all 5 participants playing at the same time). This will not only grow our player base, but will allow a method to "catch up" to higher participants in the standings.

Earning points:

When a patron signs up with Pit Staff to be a participant, they will be given a gold "Wild Aces" league card, which they will keep on the table with them when they are playing, recognizing them as a participant in the league. When the participant is dealt an "Ace", they must request a voucher from the Dealer (similar to our current paper ballots). The participant will then collect these vouchers as they play and submit them to a Pit Boss after they are finished playing, so that their points for the day can be recorded.

Participants playing with their referral must request a "referral card" from the Pit Staff, which will stay at the table with their league card to show that they are getting bonus points. The Pit Staff will check the spreadsheet to ensure the proper referral is registered and the "referral card" will be taken back after the participant is done playing.

Points for the Wild Aces Blackjack League will be recorded on an excel spreadsheet in the pit.

Weekly prizing:

Each Tuesday starting December 8th, points from the previous week (from Tuesday to Monday) will be calculated for all participants and the top 3 point-earners for the week will be listed as winners of the weekly prizes of: 1st place **$200**, 2nd place **$100**, 3rd place **$50**

Winners will be contacted and told to see a Games Manager to collect their weekly prize. Games Managers will retrieve the weekly prizes from Slots, as needed and fill out a prize form when paying the prizes.

On January 26th there will be weekly prizes for points earned in the last week (Jan 19th - 25th), as well as Final Standings Grand prizes for points earned throughout the entire 8-week promotion.

Final Standings Grand Prizes:

On January 26th the total points for all participants from December 1st to January 25th will be calculated and the top 5 point-earners in the final standings will get the following prizes: 1st place **$500**, 2nd place **$400**, 3rd place **$300**, 4th place **$200** and 5th place **$100**

Same as the weekly prizes, the winners will be contacted and told to see a Games manager for their prize.

Points Redemption:

Participants may redeem their points for extra prizes of match plays at any time during the promotion. These redeemed points will be marked as "redeemed" in the spreadsheet, but will not be subtracted from the participant's final standings. This allows participants who don't make the standings to still get rewarded for participating in the league.

Redemptions must be done with a Games manager to ensure they are logged properly on the tracking spreadsheet.

Redemptions will be done at the following amounts:

20 points = $10 match play

50 points = $25 match play

100 points = $50 match play

**Redeemable prizes are capped at $1,000 over the 8-week promo and are “first-come, first-serve". Once $1,000 in prizes have been redeemed, no more redemptions will be allowed.
